

**Name:** Wentao He

**Title:** President

**Photo:**

^honestly use this one plz it looks better than the other one

**Bio:**

Hi, I'm Wentao and a rising junior at Scarsdale High School. I will be leading the New York chapter and I joined Hearts for Healing to give back to the community and bring comfort for those who might need it. I believe that even small acts of kindness can brighten someone's day, especially if they are going through a difficult time.

I'm passionate about biomedicine and biotechnology, and I'm especially interested in how emerging technologies can improve healthcare and quality of life. In my free time I enjoy drawing and learning about history as well.

**Name: Max Gao**

**Title: Co-President**

**Photo:**

**Bio:**

My name is Max, and I'm a student currently attending Scarsdale High School in New York. I am happy and hopeful on making a clear impact in my community, whether it be through organizing drives for hospitals, or supporting local causes like hospitals, animal shelters, and homeless shelters. Outside of volunteering and school, I swim for varsity swimming and train swimming year round. I also enjoy the gym, reading, and photography as my hobbies. Through experiences like these, I've been taught how to balance demanding schedules and deal with setbacks. I'm excited to offer my leadership and devoted service to help lead alongside the New York chapter of this organization and continue helping others to expand its mission through meaningful measures.

**Name: Marcos Winfrey**

**Title: Outreach Director**

**Photo:** none available

**Bio:**

Hello! My name is Marcos Winfrey and I am a rising junior at Scarsdale High School. I'm excited to be part of Hearts for Healing as an outreach director because I believe in connecting people and helping our community thrive, I've always felt drawn to making a difference.

When im not studying, I enjoy relaxing playing videogames, talking to friends, biking or spending time watching a movie with my family.
